

## IEEE Radio and Wireless Symposium/Exhibition (RWS)

### Booth Selection at IMS 2005

Apply for space in the January 2006 IEEE RWS Exhibition in San Diego during IMS Week in Long Beach and select a guaranteed location on the RWS show floor.

The Horizon House Show Office in the IMS 2005 Registration Area, Room 104, will be equipped to accept Applications for Space in the RWS 2006 Exhibition and, on a first come, first served basis, will offer each applicant the opportunity to select a specific location on the RWS Exhibition floor for its company's display.

Take advantage of this opportunity to view the full floor, consider all the pros and cons as well as the neighboring displays of available locations as YOU decide where your display will be.

Applications will be accepted and booth selection offered beginning on Monday, June 13, the second Exhibitor set-up day in Long Beach, from 8:00 am until 4:00 pm and during all 2005 IMS Exhibition open periods on Tuesday through Thursday of IMS week.
